**SKATE BOARD PARK - TOM BARLOW** Tom Barlow was in attendance along with Sam Adams and Kyle Bateman to discuss the skate board park.

Sam Adams stated that he feels a skateboard park could be a positive part of a kids life and for some reason it does not get the positive recognition it should. Kyle Bateman reported that the skateboard park committee has raised approximately \$5,000.00 and they need at least \$80,000.00.

Tom Barlow is in the process of applying for a grant. The maximum amount you can get from the Tony Hawk grant is \$20,000.00. Tom asked what the city agreed to do in the past. They agreed to provide land and matching funds in principal.

Tom has engineers estimates and drawings of the park they would like to build. Art Cooper feels that the city needs to match the funding, speed this project up and to back the committee. Art feels this project has been on the back burner far too long.

Mayor Oldham stated that they looked at some skate boarding equipment when the playground equipment was purchased. She said we need to put this on the priority list and go after some funding.

Leland Pollock commended the group for what they have raised thus far. He would like to see them bring plans, drawings and costs and present it to the entire council.

John Orton would like to see the project done in phases and see what kind of usage they get.

**MULTI PURPOSE EVENT CENTER** Homecoming was a big event this year. There were 50 more contestants than any other year. The parade was one of the best ones ever. It takes a lot of work to keep these events going from year to year.

There are several events coming up at the multi purpose center.

**PENDING BUSINESS** The pending business list was edited. The garbage cans located at the northeast side of town were to have been moved up to the industrial park by December 31, 2004 by the county. At the present time this has not been done. The area the dumpsters are in is a mess and the council would like something done.

Mayor Oldham instructed Allen K. Henrie to contact Donna Owens with the forest service and find out the status of the grant for the ATV trail head that is to be located where the dumpsters now sit.

Part of the problem of not being able to have more say in getting the bins moved is due to them being in the county. Allen K. Henrie is going to get the council on the commissioners agenda on Monday, August 9, 2005.
